DETAILED ACTION

Claim Objections

1. Claims 14 –23,25,26 are objected to because of the following informalities:
Claim 14 discloses 'a processor for executing a code...a storage device for storing the code...wherein the code comprises...'. Examiner believes that 'code' should be 'program code'. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 1-13 recites the limitation 'the higher-level subroutine'. There is no previous recitation of 'higher-level subroutine'. There is insufficient antecedent basis for this limitation in the claim.

Response to Arguments

4. Applicant's arguments with respect to claims 1,14 have been fully considered and are persuasive. The previous rejection of these claims has been withdrawn.
